Dear Colleague:

I am pleased to present the 27th annual *FactBook* prepared by the Planning, Research and Policy Analysis office. The *FactBook* contains a collection of useful information designed to answer frequently asked questions about Illinois State University – Illinois' first public university.

Much has changed since Illinois State University opened its doors to students in 1857. The University first conferred undergraduate degrees in 1860, began offering master's degree programs in 1943 and introduced doctoral work in 1962. Currently, the University offers 72 undergraduate programs, 42 master's programs, 10 doctoral programs, a Specialist in School Psychology and 8 graduate level certificates. In fiscal year 2015, the University conferred 4,322 undergraduate degrees and 739 graduate degrees. A total of 20,807 students were enrolled last fall – 88.6 percent of whom were enrolled in undergraduate programs.

While the University has undergone many changes, our core values have remained steadfast. These values – pursuit of learning and scholarship, individualized attention, diversity, integrity, and civic engagement – remain the foundation for everything we do. The goals articulated in the University's strategic plan, *Educating Illinois*, emanate from these values, and collectively focus the institution on the actions necessary to be a national leader for educating high-achieving, motivated students who seek an individualized and transformative experience. Data provided in the *FactBook* show that the University is attracting academically prepared students, and that our students are continuing and completing their education at historic rates.

I encourage you to use this publication to familiarize yourself with the basic facts about Illinois State University. Data are presented at the University and College level; information by department and major is available on-line at www.prpa.ilstu.edu. ¹ Graduation rate is the total number of first time in college students within the given cohort who complete their degree within six years of normal time divided by the number of students in the original cohort. Thus, 73.4% of students who started in the 2009 cohort graduated through Summer 2015.

6 Years	4.3	4.7	4.6	5.1	4.4
More than 6 Years	3.7	3.3	2.4	2.5	3.0

² Time to degree is the reverse of graduation rate. Time to degree reflects the number of first time in college students who graduated from the University in a given fiscal year and then calculates backwards to track how many years it took each student to graduate from the first term the student began. It does NOT consider cohorts in the calculation. Thus, 64.5% of students who graduated in Fiscal Year 2015 completed their degree in 4 years or less.
